

Rubric - Personal Favicon Project

Rubric: Evaluate the success in creating a [favicon](#) according the following criteria.

Criteria	Yes	No	Comments
Favicon is 16 by 16 pixels			
Favicon is encoded in RGB color using at least 12-bits-per-pixel			
Favicon is a discernable image, and not merely a pattern			

Reflection Questions

1. What are the potential benefits of using a greater number of bits in designing your favicon? What are the potential drawbacks?
2. Your classmate claims, "Switching my favicon from binary mode to hexadecimal mode is be an example of compression". Do you agree with classmate? Justify your response.
3. Explain what your personal favicon is a representation of and why you chose to create this particular image.
