Exploring Computer Science / HTML Basics

Name: _____   Period: _____

With HTML you can create your Website. The tutorial at w3schools.com teaches you everything about HTML. HTML is easy to learn – You will enjoy it.

Assignment: There are three parts: This handout that is due at the end of the class (the substitute will collect it as you exit); Work through the tutorials at: https://www.w3schools.com/html/default.asp   and create an .htm file that will need to be uploaded to TurnItIn.com as HTML #2.

Work through the HTML5 Tutorial through HTML Colors. As you complete the tutorial, in your own words answer the questions and/or write what each tag will do and indicate if it is a start tag or an end tag.

After you have completed the tutorial activity, using Notepad, create an .htm file that includes as many of the tags that you have learned about, ensure that it works, and then submit it to TurnItIn.com as the HTML #2 assignment.
