Fashion Design I is the first course of a two course CTE pathway. This course will focus on the fashion industry.

The student will: Learn the aesthetic aspects of design necessary to create sketches, designs, and original fashions. It also studies fashion trends throughout history, from ancient times, to modern-day and includes an understanding of cultural, social, political, and economic influences on fashion design. Students utilize the elements and principles of design to create their own original designs in fashion. Through the use of a variety of fabrics, trims, embellishments and decorations students will express and explore fashion, art and design. Students will analyze the artistic nature of fabric and fashion design, explore the elements of the contemporary fashion movement and create their own interpretations of fashions. Throughout the year, students learn how fashion design is connected to other academic disciplines and the career opportunities that are related to the fashion industry and the world of fashion.

Grading

25% Formative work (including classwork, homework, practice tasks leading to summative work)

75% Summative work (end of unit exams, projects, etc. – there will NOT be any make-up tests to raise grade)

Absences

Students will be able to make up work missed due to **excused** absences, but it will be the students' responsibility to get the missed work. All work will be available online and the lab is open before school each day, but not after school. For after school, please use the HELP lab, but please note that sewing machines will not be available.

Late Work

Work is due as assigned and posted and late work will be accepted but with penalty based on how late. Work turned in with no name will be considered LATE.

Extra Credit

As a general rule there is **NO EXTRA CREDIT**, as extra credit for students translates to extra work for me. **AN EXCEPTION TO THIS WILL BE THE DONATION OF SEWING NOTIONS** for use in the classroom.
