Austria is a rather small country, about three times the size of Vermont, located between Germany and Italy. The best known of the cities in this country is Vienna. Over the years this city has been known for its contributions to the culture in the region, particularly in the area of performing arts. Another place that has played an important part in the exquisite culture of the area is the city of Salzburg.

Salzburg is recognized as a great city for the performing arts, particularly music. Just as important, however, is that the city is the birthplace of Wolfgang Amadeus Mozart, one of the greatest composers of all time. Perhaps no other composer has an earlier start at his professional endeavors than did Mozart. It is thought that he began playing at the age of four and began composing at the age of five.
